

How to get INCOSE Certified in 3 Steps . . .

Step 1 Learn the Handbook

SE Scholar has developed an **INCOSE SEP Exam Preparation** course to help you better understand the INCOSE SE Handbook, which is the basis of the Certification Exam. This course will help you contextualize the various Organizational, Project and Technical processes that are outlined in the Handbook.

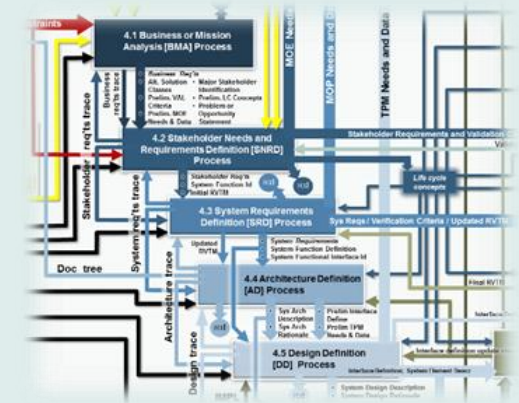

With the aid of a comprehensive **Process Flow diagram**, we will walk you through all the various Organizational, Project and Technical Processes from the SE Handbook, starting with the Life Cycle Model Management Process to the Disposal Process, in a logical and sequential manner, while covering the contents of the entire INCOSE SE Handbook.

Our course (both the live, on-line and recorded versions) include study material, numerous quizzes based on the structure of the INCOSE SEP Certification Exam.

We cover the entire Handbook within five extensive modules:

1. **The Context of Systems Engineering**
2. **From Organization to Project**
3. **Project Management - From SE Point of View**
4. **Requirements: From Stakeholder to System Design**
5. **Technical Processes - From Implementation to Disposal**

We build up the comprehensive Process Flow diagram, one process at a time until the diagram is complete and understood.

Part of the Process Flow diagram that shows all the SE Handbook Processes

Step 2 Take the Exam

Members and non-members can take the knowledge exam prior to submitting an application.

[REGISTER Online](#) and INCOSE will send you information on how to schedule the exam.

Prior to the Exam:

- Re-read the Handbook and review our course materials including the study guide and the Awesome Process Flow Context Diagram.
- Re-take the quizzes from our Course as many times as you need, so you'll be entirely ready for the test.

Step 3 Submit Application

Once you've passed the Exam you can now start your application for the INCOSE SEP Certification.

Over the years, we have noticed many students misunderstand the amount of time it takes to fill out a CSEP application. INCOSE estimates that it will take 20 hours to complete the paperwork.

You need:

- A. Verifiable Education
- B. Verifiable Experience
- C. Three System Engineering References

We offer a free 1-hour webinar which provides an extensive overview of the INCOSE organization, the certification process, and tips on filling out a proper and effective CSEP application.

Free Lecture: Understanding the INCOSE Certification Process

On our  **YouTube Channel**

Our Offerings

Free Webinar: Understanding the INCOSE Certification Process

- What is the INCOSE Certification Process?
- Detailed Qualification Requirements for the CSEP
- How to fill out the CSEP Application effectively
- Relating your experience to the 14 SE Work Areas
- Making sure your Experience Matrix matches your Position Descriptions
- Tips for interacting with potential References

INCOSE SEP Exam Preparation Course

Our on-line course consists of 5 modules with over 23 hours of pre-recorded instruction, covering the entire INCOSE SE Handbook. Includes study guides, a comprehensive Process Flow diagram, practice quizzes. Drawing from a pool of over 500 questions, you can take the quizzes as many times as you want!!

At the end of the course the student will:

- Learn the framework of the 31 Processes within the INCOSE SE Handbook.
- Have access to dozens of practice Quizzes.
- Start to appreciate the context of Systems Engineering
- Be ready for the INCOSE SEP Exam

This course is one of the best in the industry because of its comprehensive and logical approach.

A Great Value

- ◆ Affordable Price
- ◆ No Travel Required
- ◆ Study at your own pace

Mission

SE Scholar is a company dedicated to helping Systems Engineers get their INCOSE SEP certification. Our goal is to reach all Systems Engineers with affordable, high-quality Systems Engineering instruction no matter where they live or work!

Testimonies

- “I took the exam today and passed. I studied the study guide Paul presented and tried to memorize the chart he provides. [He] took a text-heavy, 800+ page document and contextualized it in such a way that I was able to get a good understanding on everything. Thank you, Paul, for your help.”
- “I previously had taken the CSEP exam and failed. After reaching out to Paul and taking his course I am excited to announce that I recently passed the exam and am now a CSEP. ... Thank you much for your help, support, and for your course.”
- “... there is no substitute for Paul’s visionary structure to learning. It is excellent: the video, course notes, example questions and discussion portals.”
- “I sat and passed the exam 1st time yesterday. Your course kept me engaged, the videos, quizzes and unique approach to tackling the order of the content really worked for me.”
